The angels have been designed to be as simple and as flexible as possible so that everyone from a beginner to a more advanced knitter can have a go.

Cut the yarn and using a darning needle, thread the end of the yarn through the stitches and tighten to create the top of the head. Turn the angel inside out and sew up the head and the body. Take a small amount of stuffing and place at the top of the head. Using a darning needle thread some yarn between the stitches around the neck and pull tightly together to create the head.

Wings

The wings are knitted in short rows, with the yarn wrapped around the last stitch in the middle of each ridge:

(w&t = wrap and turn).

To complete this you need to bring the yarn forward, slip the next stitch purl wise, take the yarn back again, replace the slipped stitch on the left-hand needle, bring the yarn forward again and turn the work. At first this seems complicated but if you persist with the pattern you will see it taking shape.

Cast on 9 sts

1. K8, w&t, K8
2. K6, w&t, K6
3. K4, w&t, K4
4. K2, w&t, K2
5. K4, w&t, K4
6. K6, w&t, K6

(Wings after knitting rows 1-6)

Repeat these 6 rows until they look like the ones in the picture, and then cast off stitches.

Sew the wings to the body.

If you want you could create a halo for the angel's head by plaiting some wool together or making a chain with a crochet hook and discreetly securing to the top of the head.

Create a hoop to hang your angel up with.
